

**REVIEW OF POLLING DISTRICTS, POLLING PLACES AND POLLING STATIONS for the Ceredigion County Council Area 2023:
(Acting) Returning Officer's Proposals for Consultation (data correct as at September 2023)**

Introduction

Ceredigion County Council as an authority is required to review their polling districts and polling places for UK parliamentary constituencies at least once every five years and the last review was undertaken in 2019/2020. In addition to compulsory reviews, local authorities may also conduct additional reviews at other points, depending on local circumstances. Additional local reviews do not affect the timetable for compulsory reviews.

The (Acting) Returning Officer ((A)RO) must comment during any review of UK Parliamentary polling districts and polling places on both existing polling stations and the polling stations that would likely be used if any new proposal for polling places were accepted.

The election rules require the (A)RO to decide how many polling stations are required for each polling place and they must allocate electors to the polling stations in such manner as they think most convenient.

Proposals

		(Acting) Returning Officer's Proposals, 2nd October 2023
'Polling district'	<p>A polling district is a geographical area created by the sub-division of a UK Parliamentary constituency for the purposes of UK Parliamentary election.</p> <p>In Wales, each community should be a separate polling district unless there are special circumstances. This means that a community must not be in a polling district which has a part of either a different community within it unless special circumstances apply.</p> <p>Those special circumstances could arise if, for example, the community has only a small number of electors and it is not practicable for the community to be its own polling district.</p>	<p>There have been no changes to the communities within the Ceredigion area since the last review was undertaken. A Community Review is currently being undertaken but final proposals will not be available until late 2024; therefore, this review does not take into account any proposals that may come from the Community Review.</p> <p>It is therefore proposed that the Polling Districts are unchanged as part of this review.</p>
'Polling place'	<p>A polling place is the building or area in which polling stations will be selected by the (A)RO. A polling place within a polling district must be designated so that polling stations are within easy reach of all the electors from across the polling district. The legislation states that 'the polling place must be small enough to indicate to electors in different parts of the district how they will be able to reach the polling station'.</p>	<p>Proposals for each Polling Place and Polling Station can be Polling Station are included in the table below.</p> <p>The proposals have been made based on a number of factors:</p> <ul style="list-style-type: none"> • The Polling District; • Accessibility requirements (as per the Elections Act 2022); • The number of electors and the number of postal voters, which are increasing annually; • The availability of alternative Polling Places and Polling Stations within the Polling District or nearby. <p>A detailed analysis of each Polling Place and Polling Station can be seen in the Evaluation Checklist document.</p>
'Polling station'	<p>A polling station is the room or area within the polling place where voting takes place. Unlike polling districts and polling places which are fixed by the local authority, polling stations are chosen by the relevant RO for the election.</p>
